YEARLY SALARY IS \$8000

Selection Is Unanimous, No Other Name Being Presented to the Board.

John W. Withers, principal of the Teachers' College, was elected Superinendent of Schools, to succeed the late Ben Blewett, at last night's meeting of the Board of Education. His salary will be \$3000 a year, the same that was paid to Supt. Blewett for several years. The salary was increased, during Blewett's incumbency, from \$6000 to \$8000.

Four members of the board voted against making the new Superinten. ent's salary \$8000 at the outset. The liscussion brought out the statement hat no educator outside St. Louis has been considered for the vacancy, also that Assistant Superintendent Carl G Rathmann had withdrawn his namrom consideration, asking that the board choose a younger man. Holt Roudebush, in seconding the nominati spoke in commendation of the assistant superintendents, and said the Board had been embarrassed by "a wealth of riches" in making its choice.

Dr. Withers is 48 years old, and is a native of West Virginia. He holds the degreen of Doctor of Philosophy from Yale University, and his service in the St. Louis schools began in 1904, when he became principal of Yeatman High chool. He became principal of the Teachers' College in 1905. His specialty has been mathematics. He is married and has three sons, and lives at 5169 Vernon avenue.

Dr. Caldwell's Syrup Pepsin Highly Recommended as Family Remedy.

In children the slightest irregulardisturb the entire digestive system, and unless promptly remedied invites serious illness. The experienced mother knows that by training her children to regularity in this respect, and when occasion arises administering a mild laxative, she will have little need for the destrict services.

Mrs. Leo Weigand, 3251 Central Av., N. S., Pittsburg, Pa., whose two boys Frank and Joseph, are shown in the illustration, writes that she has found Dr. Caldwell's Syrup Pepsin a most effective laxative, not only for the children but also for herself, and that she will always keep it in the house to use when needed. Dr. Caldwell's Syrup Pepsin is a combination of simple laxative herbs with pepsin that acts easily and naturally, without griping or other pain or discomfort. It is pleasant to the taste so that children like it, and is equally effective on the strongest constitution.

wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified cocoanut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten the hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

Again for \$1—While They Last

This Guaranteed Aluminum Cooker

The cost of Aluminum has doubled since we ordered these lifetime Cookers. At present prices, this offer would be impossible. So, in all probability, after our supply is exhausted, it cannot be made again.

Next week the grocers of this city will once more feature this Quaker Cooker offer. And for the last time, we believe.

We have supplied Cookers now to over 1,000,000 homes. We have supplied these guaranteed Aluminum Cookers for \$1 to Quaker Oats users. But this offer ends with our present supply, and probably forever. Unless Aluminum drops 50 per cent, we cannot again offer a Cooker like this for \$1.

But next week only we make the offer below. You can get this Cooker for \$1, by buying two of our cereals which should be cooked in it.

This offer is made to induce better cooking. To bring you Quaker Oats and Pettijohn's cooked in perfect form, with the flavor kept intact. Our reward will come in your doubled delight in these foods.

We ask the trademarks just to show that you use our cereals. Unless you have the right flakes, right cooking does not help much. But, if you use Quaker Oats and Pettijohn's, this cooker is yours for \$1. This is for one week only. Get the packages from any grocer named below.

WEDNESDAY EVENING, FEBRUARY 14, 1917.

One Week Only-Your Last Chance

Our Offer Is This: Send us two trademarks cut from packages of Quaker Oats and one trademark cut from a package of Pettijohn's—the picture of the Quaker on the front of the Quaker Oats package and the picture of the Bear on the front of the Pettijohn's package—or, if you prefer, you may send us five trademarks from Quaker Oats alone Send us \$1 with these trademarks and we will mail the cooker by parcel post.

Trademarks must be mailed next week. This offer applies in this vicinity only. Address The Quaker Oats Company, 1708 Railway Exchange, Chicago

Quaker Oats The Extra-Delicious Vim-Food Flaked from Queen Oats Only

All the world over Quaker Oats holds first place among oat foods. Oat lovers of a hundred nations send to us to get it. A billion dishes are consumed each year. Nowhere in the world do connoisseurs find any oat food

The reason is this: Quaker Oats is made from queen grains only-just the big, plump, luscious oats. No puny starved grains are included. A bushel of the choicest oats yields only ten pounds of Quaker.

The result is a flavor which has won the world—a flavor which is match-

less. Yet these large and luscious flakes cost you no extra price. Nature stores in oats a wealth of vitality which everybody needs. We want you to know this fascinating vim-food, made as we make it and cooked

PREMIERE OF MOORE'S OPERA "LOUIS XIV" AGAIN POSTPONED

First Performance Set for Friday

Night, When Constants Is Expected to Be Able to Sing.

A second postponement of the premiere of Homer Moore's opera, "Louis XIV," first set for Monday night and then for tonight, was announced to day. The first performance is now promised for Friday night at the Odeon, and the succeeding three performances are set for Saturday afternoon, Sunday night and Monday night. Tickets for tonight may be exchanged for any of the other performances.

The cause of the delay was a touch of bronchitis contracted by Florencio Contitle role. At first it was thought he would be able to sing tonight, but after Dr. M. A. Goldstein examined the singer's throat at noon today he mended a postponement of two days.

Johnson Circuit Almost Certain to Follow National in Abrogating Agreement.

FULTZ

Announcement Made by Players' Spokesman as to Calling Off of Strike.

NEW YORK, Feb. 14,-"What kind of a valentine will the American League hand Dave Fultz and his fraternity, at today's meeting of the Johnson circuit magnates?" was the question asked this morning. Following the announcement yesterday that the National League had broken diplomatic relations with the Frat, little doubt was expressed that the American League would take similar action Dave Fultz has cut his own line of communication. Not a word as to his communication. Not a word as to his plans will he give out officially, especially as to whether he will call off the threatened strike of Feb. 20.

The prevailing belief is that Fults's

strike is hopelessly broken, regardless of what his orders of next Tuesday may be may be.
The National abrogated its agreement, made three years ago with the Baseball Players' Fraternity yesterday at the schedule meeting in the Waldorf.

In the fature the Fraternity will receive as recognition from the league or the club owners and will not be considered in relations with the players.

all relations between this league and said fraternity are hereby severed and terminated.

The club owners said frankly that hey were tired of threatened strikes and constant troubles due to the Fracturity, and took the attitude that if break with the organization meant var, they were ready for it.

Before offering his resolution Herrann went over the troubles of the formission with the Fraternity and xplained in detail the steps which nally led to the break.

Huggins had several talks with Charles Ebbets during the course of the day and Snyder may yet become a member of the Brooklyn club. Robbie was at the Waldorf and admitted that he was after Snyder, but declined to name the player who may figure in Dave's 1917 Record.

The meeting will be resumed this after-noon at 2 o'clock, when the schedule for the coming season will be adopted.

Done, if Men Are Not Discriminated Against.

NEW YORK, Feb. 14.-While the Na tional League club owners were spending their time at the Waldorf adopting resolutions tending to eliminate the Players' Fraternity, John J. McGraw, manager of the Giants, was having a quiet talk with Dave Fultz, president of the Fraternity, at the Murray Hill

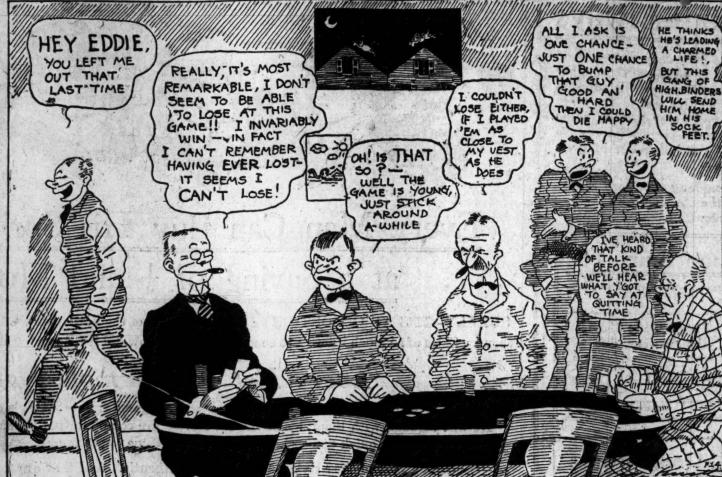

otel.

Fultz had intimated to others that a Fraternity might honestly be missen in its contention that the Namal Commission could, if it would, ignored the minor league grievances of hich complaint had been made.

McGraw talked frankly to Fultz and tally received the assurance of the test that if the major leagues would res to make no discrimination against liplayers who had stood by the Frankly the latter would release the embers from their piedge not to sign eir contracts and call off the threated strike.

McGraw then went back to the Walfram tendent the newspaper representatives he plained that while the Fraternity no arminesten was to be made against player who might have been or nitnued to be a member of that ornization.

PENNY ANTE: The Guy Who Brags About His Luck &

CUERO, Tex., Feb. 14.-Dave Daven yesterday afternoon, owes his life to a watch which he carried in his shirt pocket. The watch deflected the bullet which entered under the lower ribs and ranged upward, coming out just below the collar bone. Davenport's condition is serious.

He was removed to a hospital here from his home in Runge, Tex., where the accident happened. Davenport had just returned with an automobile party of friends from a hunting trip to the nearby gulf coast country and was replacing a rifle in a scabbard when it was discharged. He was accompanied here by his wife and mother.

After a cursory examination the physicians expressed doubt about Davenport's ability to pitch baseball this scason. However, the full extent of the injury has not yet been determined. The watch was demolished, parts of it cutting his face.

The big flinger, although he has not signed his contract for 1917, was counted upon heavily by Fielder Jones, as last season, after he finally got started, which was not until three months after the campaign opened, he was Jones' dependable righthander. And the Browns were woefully weak in this department last season, having more good southpaws than righthanders.

RANDALL'S DECISIONS Harry Kabakoff outpointed Jimmy Murphy, 12 rounds. Kid Regan beat Mike Shean, Referee Randall stopping the bout in the seventh round. Young Lavigne outpointed Johnny Alberts, 6 rounds.

By W. J. O'Connor.

Referee Eddie Randall gave it as his opinion that Harry Kabakoff, the 'pride of Ghetto,' outpointed Jimmy Murphy in twelve rounds at the Fu ture City Athletic Club last night. It was the fourth time that these bellicose bantams had swapped blows in local ring, and the match proved sufficiently enticing to fill Tommy Sullivan's fistic shop from pit to dome. It was a capacity house.

In their first meeting Murphy termi-nated things suddenly with a knockout that was as much a surprise to the fans as it was to Kabakoff. In three subsequent collisions, including last night's, Kabakoff has hewed out a narrow decision on points. As a result of last night's showing he is not assured of a match, next Tuesday night, with the newly crowned bantamweight with the newly crowned bantamweight champion, Pete Herman. This bout is scheduled to be fought at the Coliseum. There was plenty of action in last night's mill, but there were many who left the club convinced that Murphy had shaded the Israelite. That those were in the minority one might have forecast before the bout had he feit the pulse of the crowd. Kabakoff's followers outnumbered Murphy's two one, and they were noisy and intensely appreciative of any punch that passed Murphy's guard. Indeed, a more violently partisan crowd has rarely turned out here.

He kept stabbing Kabakoff's nose with a left jab that finally drew blood snd as the bout wore on had Kabakoff's face puffed and thoroughly disguised. Murphy, too, "spilled the claret' later in the bout, and at the finish both were bleeding rather profusely.

However, Kabakoff seemed to endure better. He finished stronger and in the end, that's the supreme test. He landed three times to Murphy's one in the twelfth round; but that's the only round in which he had anything like such an advantage. In the ninth, for instance, Murphy rushed from his corner like an infuriated and famished timber wolf and messed his adversary up rather inconsiderately.

He carried the fight to his opponent throughout this round, rushing him hither and yon, and landed telling blows. Kabakoff broke ground and took the defensive, covering up almost throughout the round. Murphy came back in the tenth with the same tactics and had a big lead until Kabakoff caught him on a rebound from the ropes and staggered him with a right to the jaw. That blow hurt and slowed Murphy down. It looked like the bardest shot of the bout, although Murphy did hit Kabakoff so hard in the seventh that he (Murphy) fell down as Kabakoff More Aggressive.

An Interview with President Wilson | mitted to achieve a permanent and obtained by George Creel soon after the November election, is published in the out outside interference. No aid," the out outside interference. No aid," the February issue of Everybody's Maga- President declares, "will be given to the estoration of a dictatorship.'

An equally interesting statement made not in the President's own words but as an authoritative prediction of the writer, after his talk with the President, is that, as the leader of the Democratic party, President Wilson will not attempt to select that party's nominee for the presidency in 1920. "No heir apparent will be designated," is the way Creel puts it.

View of Election Result.

He quotes the President as saying, in regard to the result of the election, that 'The people of the United States were not bribed by the promise of a full dinner pail, nor frightened by the fear of war. Their intent was to consolidate he ethical gains of the last four years The voe was an approval of progress.

The President is also quoted as ex ressing determination to do all that the overnment can do to prevent increases the cost of living by "cupidity and xtortion," and as continuing to favor impulsory arbitration of labor troubles and an act limiting the expenditure of arty funds in presidential elections.

Regarding the problem of Americai rade and manufacture after the war, the President takes the view that no "instant rivalry" is to be feared after peace comes. "Is it sensible," he asks to assume that these sore-pressed nations, straining every nerve in a fight for life, are accumulating great stores of manufactured goods to dump on the are the raw materials? Where is the me? Where is the skilled labor?" He urther speaks of the heavy debts of ach belligerent nation, and the number of widows, orphans and cripples for hom each country will have to care, as auses of increased taxation, which wil gure in the cost of production

"Europe." the President declared t he interviewer, "should appeal to all that is generous in our sympathies, not to all that is ignoble in our fears. God speed the day when our cargoes to Europe shall consist of raw materials and inished products for the normal business of life, instead of munitions for the estruction of life."

Plans as to Legislation.
Legislation affecting business is discussed at considerable legath, and the President says the country's business has been in the control of too small a ody of men. "As a matter of fact," he mments, "business has not wanted to free it has wanted to be taken care of. Initiative, instead of pushing ahead. has wasted time begging for crutches."
In matters of foreign policy, the Presient indicates as the chief articles of hi reed respect for the rights of small no ons, and the need for a universal asso iation of nations that will safeguard

Pan-Americanism, the writer says, j ose to the President's heart. The Presdent is quoted as saying that the whip irchase act will be "driven through to peedy operation" as a means of cultivating trade with South and Central nion of the nations of America which vill leave each independent and with erritorial integrity, but which will pornit America "to present a united front when it is necessary to do in the interests of mankind."

LETTERS FROM THE PEOPLE

Mac, Mc, M' and O. To the Editor of the Post-Dispatch.

What do they mean as applied to names? Last August I went to the St. Louis postoffice to cash a money order. Identification was required. I showed a book with my name written J. MacC and J. McC. The question naturally was asked "Are both names yours?" Yes, "Why do you spell them differently?" I explained and satisfied the clerk. In October I went to register. I registered J. McC, my son J. Why are there so many people with the same middle name and what does it mean? In the St. Louis directory there are over 1700 Macs, Mcs and M's. I have asked their meaning of many, but they could not explain, some stating that Mac was Scotch and Mc Irish. Now, Mac is in common use in Scotland and Mc in Ireland, but that does not explain the difference in meaning. Webster's Dictionary states that Mac is a prefix and means son of—it means daughter also. THAT LEGISLATIVE JOB.

We commend Gov. Gardner's resolution to "stay on the job" in Jefferson City until the Legislature adjourns. We hope his optimism with regard to the principal measures in his program is justified. The bills in his legislative program which the Governor says will be adopted are the following:

MEDICAL TYRANNY.

A bill has been introduced in both houses of the Missouri Legislature which proposes to establish a department of child hygiene under the State Board of Health. In addition to provisions for general sanitation seeking to prevent and control diseases of childhood, it contains a joker which should invalidate the whole measure unless it is eliminated. The joker is a clause which gives the Board of Health the right to "supervise and regulate" medical inspection of all children in the public schools.

The immediate effect of this would be to take welfare of their children and delegate it to arbipulsory examination and perhaps compulsory of whether there was any danger to the public people, not to the butter makers, and that the

BY GRACE OF LAW.

It is not possible to say what Count von Bernstorff's reflections may be as he pursues his voyage homeward, honored and protected by the United States and by the navies of Great Britain and France, but most honorable men who regard him as an honorable man, can imagine them. He knows that no German port is open to him. He nows that no German ship venturing to appear on the surface will welcome him. He knows that even in the zone that has been made so dangerous by the lawlessness of his countrymen he will owe life and liberty to the guns of a foe. The Count and many who have sought passage

with him will have many an hour on the Atlantic to reflect on questions of vital concern to civilization. In their persons, safeguarded in accordance with ancient usage, there is given to the world a profound lesson in international law: Nobody pleads necessity in their case. Mercy as it relates to them is not denied on any military pretext. A thousand hostile commanders, any one of whom might send them to watery graves and boast of a letter to the Post-Dispatch, have come similar it, if actuated as the German Admiralty is actuated, will see them safely home, as honor bound This is the majesty and the grace of the law

CHICAGO WHEAT MARKET

Traders depressed wheat futures over the first of the early market on the Merchants' Exchange today, largely owing to unsatisfactory shipping conditions and congestion of supplies at ports. The distance of supplies at ports. The distance of supplies at ports. The market closed irregular and nearly 2c under yesterday's finish. Corn futures averaged a fraction lower in sympathy with wheat, but trading was quiet, as receipts were light and statistics buillish. Oats were irregular to a fraction lower. Coarse grains closed 4c to 1c lower. Broomhall's Liverpool cable said: "Wheat dull but firm, with buyers waiting shipping which is difficult, and this restricts business. Corn firm, with arrivals limited and consumption liberal. Oats steady, but dull. Recent purchases have been liberal and now traders waiting for more favorable shipping conditions before renewing buying. Flour firm, American shipments are increasing and continental absorption liberal. Provisions strong."

The Post-Dispatch Daily Short Story

St. Valentine's Day

NNE laid the last valentine down lingeringly. The pretty laceedged messen Haunted their protestations of deathless love bravely despite the dinginess which the years bestowed upon them.

A fat, pink cupid smirked up at her with a jolly air. That was sent by Jack. He never forgot a holiday greeting. She pored over the absurd rhymes, full of loves and doves, and recalled their brief engagement. She had worn the quaint little blue enameled forget-me-not ring for just a week before the quarrel. She had not seen him for two cears, and here in Edinburgh who cld send her a valentine? Romanco was dead.

"Anne, what are you doing?"
"Mooning. Aunt Clara," replied "That's an unprofitable occupation

glancing at her ringless left hand. "Go home!" repeated her aunt, jab-bing her head with a hairpin in her excitement, "with Sir Donald on the very verge of proposing, and you'll be my lady!""
Mrs. Murray sat down on the couch

by the window and gazed out at Edinburgh Castle. The moonlight threw glory over the dusky turrets and towers. "The old world stands for considerable," went on the considering aunt. "Just look at that pic-ture and think of a title centuries old with its traditions of honor and chiv-alry. I only wish I were you and had your chance, Anne." Anne smiled. Her

the forget-me-not ring and left her. The postman brought no frivolous satin messengers with vividly impossible flowers, and Anne felt that somehow the genial St. Valentine was a fraud. She stalked out after breakfast. A spirit of frivolity entered her and she reolved that as no one cared enough to remember her she would buy a valen-tine herself. She bought a box of American beauties and sent them to her aunt and the sight of the home flowers made her long for the sight of an American

table in valentines, so she had fallen back upon flowers. She found a large heart-shaped basket of a soft green wicker. Under her direction the man nassed glowing pink roses, and after selecting a gilt padlock to fasten the top, she left careful instructions to deliver it at her hotel at 8 o'clock exactly. Sir Donald dined with them, and his

infatuation was evident.

"Not that, dear Miss Anne," he said.
